**Event Summary:** This event is one of the larger, combined, security & law enforcement events in Ohio that is entitled "Law Enforcement Appreciation Day." One focus is on how the combined efforts of both law enforcement and the private sector have made a significant impact in reducing and preventing crime, terrorism, or other forms of criminal behavior. The main focus of this event, however, brings special attention to our law enforcement officers for putting their safety and lives on the line every day. We will have 100-200 members of law enforcement and private sector security professionals present at this event.
